

Bingo Teen and Tys

Purpose:

- To give practice in identifying and hearing numbers that end in 'teen' and numbers that end in 'ty'.

You need:

- Game board (one per player)
- Caller's numbers
- Four players

How to play:

- This game is played exactly like Bingo
- A caller reads the number and if it is on their board the child will cover the number.
- The one who has all the numbers on their board covered is the winner if they pass the check test.
- Their numbers need to be checked as they may not have heard them correctly eg. If 17 is called they may have covered 70.
- Give children practise in reading the numbers aloud.

Variations:

- Play a traditional game of bingo if you have one.
- Make a 3 x 3 grid and use numbers to 20
- Read statements so the children have to cover the answer eg. Make a set of cards that have statements like $20 + 30$ or $7 + 7$ or $6 + 6 + 1$ They would have to cover 50, 14 and 13 if they had them on their game board.

12	17	13
11	20	80
70	90	14
18	30	40

16	17	19
40	20	60
70	90	14
10	12	50

15	70	100
11	19	18
50	13	90
80	10	17

16	30	100
11	18	40
80	60	13
14	15	20

Cut numbers up below and place into a container. They become the callers numbers.

10	11	12	13	14
15	16	17	18	19
20	30	40	50	60
70	80	90	100
